Profile Summary

Highly motivated IT student with a strong foundation in photo and video editing, digital painting, and web development. Skilled in Adobe application, programming languages, and project management. As the project manager of a successful capstone project, I demonstrated leadership, teamwork, and problem-solving skills in delivering results. I am seeking an internship opportunity to apply my technical skills, creativity, and management experience in a professional environment while gaining hands-on learning.

Education

STI – San Jose Del Monte
Bachelor of Science in Information Technology
Expected Graduation Date: July 2025

Relevant Coursework

- **Web Development Fundamentals** – focused on responsive design, usability, and front-end back-end integration.
- **Advance PHP & Laravel Framework** – Hands-on experience in building scalable web application.
- **Database Design & Management** – Relational database design and SQL integration with applications.
